

Villas of Kings Crossing Newsletter

October 2025

We have made it to October – more than half way through the hurricane season. Rainy season is almost over (October 15th). Not to jinx us, but we have been very fortunate this season – so far. In the event of a storm, there's a lot of information available at <https://desotobocc.com>. That is the Emergency Management site for DeSoto County. There's also a booklet that may still be available at some local stores called WINK Hurricane Guide 2025 which has information on everything you need to know about a storm. Let's hope we read up on all of it and never need to put it to practical use.

The quarterly bug spraying will be on Monday, October 6th. A flyer is on the bulletin board with further details. If you will not be home, please make sure to let your building captain know so they can let the exterminator in. It's important that all villas get treated.

We've had a lot of rain this summer and Mario is a bit behind, but he says he will start trimming the shrubs in the next week or two. I know a lot of you have asked about it.

Most of our snowbirds should be back by the end of this month or early next month. It will be great to see everyone and catch up on our summers. We hope to have a pot luck supper in early November.

We are the process of fixing a part on the pool which controls the water level. Hopefully that will be done this week. We signed a contract for the new fountain on the north pond and are waiting to hear back from the contractor as to when they can start the job.

October birthdays – Evelyn Jeris on the 31st. Apologies to Gerald Roberts whose actual birthday was September 12th – it was listed as the 8th. Happy anniversary to Sherry Whittaker and Richard Gouveia on October 21st.

Please keep your carriage lights on for safety and continuity.
